Maintaining Recreational Access

CPR Access
- Universal launch site for Lower Canyon rafting.
- Poor access to highway due to sharp, steep turn and poor sight distance.
- Only access available
  - must cross double line to turn off/on Trans Canada Highway
  - must cross CP tracks

Rafter's Pullout
- Universal takeout point.
- Mandatory takeout point as commercially unnavigable Class 6 rapids begin around corner.
- North Spoil Pit.

Mt. Hunter Creek
- Used as lunch stop/start of half-day trip.
- Up to 5 rafting companies use this site.
- Former BCFS recreation site.
- Also MoT gravel source.
- Poor highway access due to sight distance.

Palliser
- MoT gravel source.
- Former BCFS recreation site - only Crown Land public access point to the river remaining.
- Approximately 4 companies using site for lunch stop.

Golden Take-Out
- Lower canyon take-out point

Emergency Pullout
- Uses local CPR access

Beaverfoot Bridge Area
- Launching site for Upper Canyon trips.
- Access required on both sides of river, upstream and downstream of Beaverfoot Bridge.
- Some private lands.

- Rafter's Pullout is major focus in Phases 1 & 2
- Access to be maintained in all stages of construction
